Chapter 17

allowed human populations to grow at an unprecedented rate. An area of land can support up to 500 times as many people by farming as it can by hunting and gathering. Active Reading Workbook This is a good, well-written textbook with a lot of great illustrations and diagrams. However, the book is written on a very basic level, and only provides a very superficial coverage to current environmental science topics. I would not recommend this textbook for upper-level high school students.
