eReplacementParts.com After purchasing the 4200NH I  
realized I probably should have chosen the Porter  
Cable worm drive. The PC costs just a hair more and is  
a better quality tool. My 4200NH has 7.8 amps of  
power as opposed to the stated 9.1 now so I assume  
Makita has made some changes. Still, with just under 8  
amps of power this little guy does pack a pretty good  
punch. Amazon.com: Customer reviews: Makita
